Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on May 2, 2005 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 20-32 and 35-41 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by SPE 56669 (see page 2, column 1, lines 21-42; page 3, column 1, line 14 through page 4, column 2, line 17; page 5, column 1, line 5 through page 6, column 2, line 2; and figures 1-7).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

Art Unit: 3672

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 33 and 34 are rejected under 35 U.S.C. 103(a) as being unpatentable over SPE 56669 in view of Musselwhite et al (US 6,679,336) or Nelson (US 3,419,081).

SPE 56669 discloses the invention as claimed except for the use of a valve in the cementing device. However, either Musselwhite et al or Nelson shows that it is conventional in the art to provide the lower end of a casing or liner to be cemented in a well with cement float equipment including a cementing valve as recited in order to optimize the cementing operations (see figures 2-9 and lines 1-3 of the abstract in Musselwhite et al and figures 1-6 in Nelson). It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide SPE 56669 with a cementing valve as claimed in view of the teaching of Musselwhite et al or Nelson for the advantage pointed out above.

Allowable Subject Matter

6. Claims 42-49 are allowed.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoang Dang whose telephone number is 571-272-7028. The examiner can normally be reached on 9:15-5:45 Monday-Friday.
